

animals small

Design: Aditya Somway for Chisel
2017

DESIGN:

Our origami animals are gentle little things made from big mean machines. They grew up playing in industrial playgrounds but now that they've been tamed for humans, they keep their antics strictly for when you're looking away. By day, they turn into chic metal seats with soft leather feet.

Made to order:

Please contact us at hello@studiouchisel.com for pricing and availability.

MATERIALS AND FINISHES:

Industrial grade powder coated paint.
